CRedit authorship contribution statement

Rahat Zeeshan Saleem: Conceptualization, Validation, Resources, Writing – review & editing, Supervision, Project administration.

Hassan Waqas Saleem: Conceptualization, Methodology, Software, Validation, Investigation, Data curation, Writing – original draft, Visualization.

Hina Maryam: Validation, Formal analysis, Writing – review & editing.

Acknowledgements

The authors thank Peeris, Baryannis and Papadakis (2026) for making both underlying source datasets openly available.

Declaration of competing interest

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

Funding

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Data availability

The two source datasets are openly available on GitHub at <https://github.com/utomogirraz/graph-app-kit> (LODHalal) and at <https://github.com/lx249/anon-network> (AnonNet). The code, both source datasets and all experimental results are maintained at <https://github.com/hwaqas160/suschain-kgc>, and a complete replication package built from that repository is archived on Zenodo (<https://doi.org/10.5281/zenodo.22246821>) under CC BY 4.0.

Declaration of generative AI and AI-assisted technologies in the manuscript preparation process

During the preparation of this work the authors used Anthropic Claude in order to edit language, draft and revise text, write and debug analysis code and generate figures from computed results. After using this tool, the authors reviewed and edited the content as needed and take full responsibility for the content of the published article.
